

COMMUNITY DENTAL SERVICES

What is community dental services?

Service video: <https://youtu.be/XXKrynuu-1U>

Anyone living, studying or working in London can access good-quality NHS dental services. Simply find a dental practice that's convenient for you, and contact them to make an appointment.

If the patient has no usual dentist, or there is no response from the usual dentist, the patient should try searching on the NHS Choices if they can access the internet <https://www.nhs.uk/service-search/find-a-dentist> or they should contact NHS 111.

Who can refer?

- Self referral
- Reception / Admin
- GP

How to refer?

Electronically - Patients can try NHS Choices if they can access the internet
www.nhs.uk/service-search/find-a-dentist

Telephone – Patient should contact their local dentist or if patient is unable to access the internet, they can call 111
